

We hope you had a great summer, and welcome back to the 2019-2020 academic year at Lee Elementary!

As most of you know, Project Leap provides financial support to Lee Elementary by making direct contributions from various fundraising projects throughout the school year. The primary focus of Project Leap is to continually provide for the ongoing technology needs of our school, including computers and tablets, educational software and their yearly renewal fees, the funding of our part-time media center / Makerspace teacher's salary and a part time media center instructional aide, providing SMART boards and ELMO projectors in classrooms, the renewal fee for Project Lead the Way, as well as a host of other technology-related needs.

In the early Spring, Project Leap must write a large check to the Los Alamitos School District to ensure Lee Elementary keeps the part-time Media Center/Maker Space teacher and part time media center instructional aide for the 2018-2019 academic school year. We are estimating the cost to be at least \$75,000.

In addition, we will be giving \$10,000 at year, for the next three years, to assist in replacing classroom projectors and document cameras. Also, our Kindergarten and first graders need 50 more iPads to complete the iPad program and our teachers classroom computers are needing to be replaced. Project Leap is committed to raising the additional funds to meet the growing needs of our students and our school. We can only do this with your generous help.

Project Leap is asking for your help. We estimate that a contribution of \$200 per student is required to ensure Lee keeps these critical programs and additional technology needs not funded by the Los Alamitos School District.

To this end, Project Leap is asking our parents to pledge \$200 per student. Project Leap is a non-profit organization, so you will receive a receipt for tax purposes, as donations are deductible to the extent permitted by law.

To make the donation pledge easier for our parents, we have provided for you three different "Pledge Plans", allowing you to make either a one-time donation of \$200.00, a donation of 2 payments of \$100.00 each, or a donation consisting of 4 payments of \$50.00 each. Please choose from one of the three Pledge Plans on the attached sheets, include your payment in an envelope marked "Project Leap Pledge" and drop the envelope off at the Main Office or you may send it in with your child (have them hand it to their teacher).

Thank you so much for your support! We appreciate you!

Project Leap is a non-profit corporation to benefit the students of Lee Elementary School
A National Blue Ribbon School and 2016 Gold Ribbon Award School in the Los Alamitos School District
